

Improving your health through Homeopathy

CHILDRENS HEALTH

Our children are inundated with too many drugs. The drugs that children take for ADHD, autism etc., have too many side effects. There is not enough research to indicate what will happen to our children when they are in their 20's or older after taking all these drugs. Western medicine treats the condition, not the cause.

The Tree of Life Health Center gets to the root of the problem and treats the condition without drugs. Children have come into my office after being diagnosed with ADHD only to discover that the problem was with their vision.

A five year boy came to my office diagnosed with asthma. He was on cortisone, antibiotics and a breath inhaler. He is now off of most of the medications and the inhaler. With time he will not need anything. He can go back to leading a normal childhood, running and playing with the other kids.

One other note about children and this means teens, too. Keep them away from caffeine, and cut back on sugar

products. You will see a big improvement in their personalities and how they feel when you cut back on these two items.

We offer a 30 minute free consultation. It doesn't hurt to come in and find other health solutions to your child's conditions. Start them off on the right path at an early age. They will thank you for it when they are in their 20s.

TAKING CONTROL OF YOUR HEALTH

Are you willing to take responsibility for your own health? Do you have a health problem that you are trying to solve? Are you willing to get to the cause of your health problem? Are you tired of the limitations and restrictions that insurance companies give you?

If you have said yes to any or all of these questions then you have come to the right clinic. At the Tree of Life Health Center we are looking for patients who are genuinely interested in identifying and making changes necessary to enjoying a healthy life style. We give you the tools that you need to be healthy. Staying well is a lot cheaper than being sick.

If you would like more information or you have any questions please call us. We offer a 30 minute free consultation. Call today 773-385-9432.

Facts

- Homeopathic treatment for children can be separated into two categories: self-limiting, acute conditions such as colds, sore throats, and stomach flu, or persistent, chronic conditions such as allergies and eczema. Homeopathy is successful in both categories
- Homeopathic theories are based on fixed principles of the Laws of Nature which do not change – unlike medical theories which are constantly changing!
- The homeopathic practitioner endeavours to search for and treat the CAUSE of the disease in order to heal the EFFECT.
